Product Description

Product Description:

At a size of 118.5(H)*160(W)*50.1(T), this battery is a compact and efficient option that won't take up too much space. However, despite its small size, it packs a powerful punch, thanks to its 3.2V 280Ah Lifepo4 Battery. This high-quality battery features 100% NEW A-grade Cells, ensuring that you get the best performance possible.

Despite its impressive power, this battery is surprisingly lightweight, weighing in at just 1920±100G. This makes it highly portable and easy to carry around, even if you are using it in a device that needs to be moved frequently.

Applications:

The enook 3.2V Lifepo4 Lithium Ion Battery is perfect for use in electric bikes, mountain bikes, motorcycles, and bicycles. Its capacity can be customized to meet the needs of the user.

This battery is designed with a standard charge-discharge rate of 0.5C(P), ensuring that it can be charged and discharged safely and efficiently. It comes packaged in an ABS/metal case or can be customized according to the user's specific needs.

The enook 3.2V 280ah Lifepo4 Lithium Ion Battery is suitable for use in various occasions and scenarios. It is a perfect choice for individuals who require a reliable and efficient power source. Its compact and lightweight design make it easy to install and use, while its customizable voltage and capacity options ensure that it can be used in different applications.

In summary, the enook 3.2V Lifepo4 Lithium Ion Battery is a high-quality product that is perfect for use in different scenarios. Its versatility, customizable voltage and capacity options, and standard charge-discharge rate make it a reliable and efficient power source for various applications. Whether you need a lithium E-bike battery for your electric bike, mountain bike, motorcycle, or bicycle, this battery is the perfect choice.
